Education—Prior to involvement with RENEW, 257 participants were enrolled in school. Since RENEW, 278 participants have been enrolled in school.
**Employment**—Due to the age range of Project RENEW participants, (0-18), the program encourages education first. Employment is encouraged for teens needing part-time employment or whose free time is better spent in employment rather than unstructured activities.

Psychiatric Hospitalizations - In the year prior to enrollment in RENEW, 33 participants reported being admitted to a psychiatric hospital. Since RENEW enrollment, 29 participants were hospitalized.

N= 280
Incarcerations - In the year prior to RENEW enrollment, two participants reported being incarcerated. Since RENEW enrollment, five participants were incarcerated. Factors in this increase could be an increase in the legal education given to the families of participants, and the scrutiny given to participants while enrolled in the program.
