

# CONSTRUCTION UPDATE

## Silverado Canyon Road Pavement Rehabilitation

OC Public Works will repave Silverado Canyon Road from Santiago Canyon Road to the entrance of the Cleveland National Forest.

**WHAT:** OC Public Works will complete a pavement rehabilitation on Silverado Canyon Road. **Area residents should be advised that access to residences may be limited during working hours, depending on the date and location of the work.** In an effort to avoid a complete road closure, construction activities will occur simultaneously at multiple locations.

**Road constraints east of Silverado Café may cause road users to be subject to traffic delays of up to 20 minutes during regular working hours.** Residents who live east of Silverado Café are encouraged to use Silverado Canyon Road outside of regular working hours when possible to avoid potential longer traffic delays. Residents who reside on Silverado Canyon Road will receive an additional notification 48 hours in advance of construction with door hangers. "No Parking" signs will also be displayed in working areas. **Residents should be advised that trash services will continue on Thursdays, however, the pick-up time will be early in the morning before working hours** to accommodate the pavement rehabilitation project.

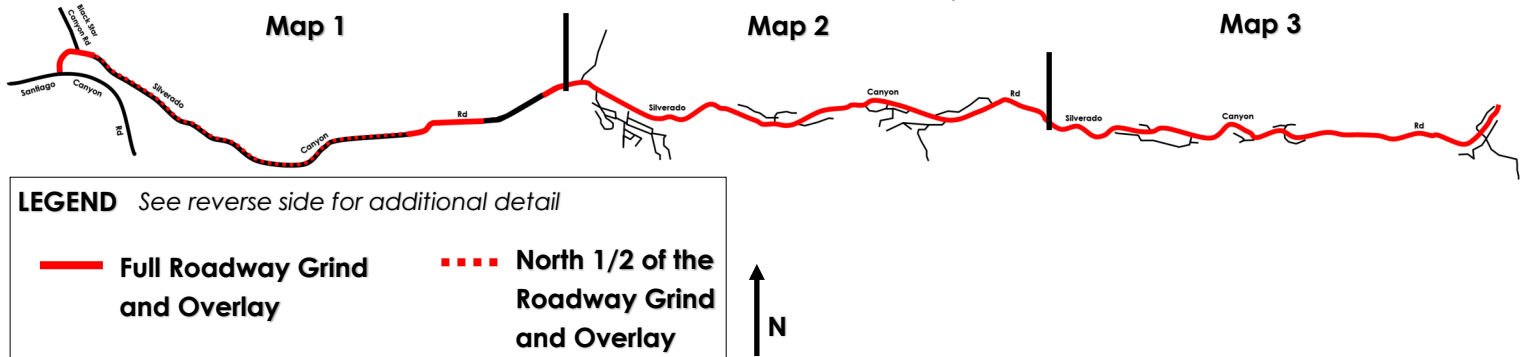

The pavement rehabilitation consists of grinding and paving the entire reach of Silverado Canyon Road from Santiago Canyon Road to the Maple Springs Trailhead at the entrance of the Cleveland National Forest. All road users, including bicyclists, are encouraged to exercise caution during construction. There will be a period of time when the roadway will have a rough, unfinished surface after completion of the grinding operation and prior to the paving process. This work is being completed as a follow-up to the remedial repairs previously completed in early 2018.

In the case of an emergency, construction work will be temporarily halted to allow emergency vehicles to pass, as well as residents during an emergency evacuation. OC Public Works is coordinating with local agencies.

**WHEN:** **Updated Construction Duration:** **Monday, June 18, 2018 — Friday, July 13, 2018** **Working Hours:** 8:30 am – 4:00 pm

*Working hours are reduced to minimize impacts to residents in the area. The construction schedule is tentative and subject to change due to weather and other factors.*

**WHERE:** Silverado Canyon Road between Santiago Canyon Road and the entrance to the Cleveland National Forest. See below and the reverse side for a project area map.
